

What do I know?

Handout RP3

Use the handout to keep a track of your knowledge and understandings, as well as any gaps in your research. It will be a helpful resource to guide your research, as it can sometimes be easy to forget what you didn't know at the start of the research process. You might also try to complete this before you start the research so you can track what you know and your assumptions as well as identify what you need to find out more about.
